**ORDER RE: PLAINTIFF'S MOTION
IN LIMINE**

20 This matter comes before the Court on Plaintiff's Motion In Limine (MIL). Dkt.
21 # 52. The motion is noted for February 10, 2023, but it is fully briefed (*see* LCR 7(d)(4) (no
22 reply allowed), and the Court may now rule on it. The Court has considered the materials
23 submitted in support of and in opposition to the MIL, as well as the applicable law and the
balance of the case file. Being fully advised, the Court rules as follows:

1 This MIL concerns “Undisclosed Opinions or Arguments . . . Requiring the Jury to
2 Speculate Regarding Allegations That Plaintiff Has Failed to Mitigate Her Damages.” The
3 Court hesitates to grant such a broad request. Accordingly, the Court DENIES this MIL
4 without prejudice. Plaintiff may raise this objection during the course of trial.

5 DATED this 7th day of February, 2023.
